<b>INDICATOR</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Retention	All of our M.S. programs are designed for working professionals seeking to attend school on a part-time evening or weekend basis. Depending on the program, students attend 3 – 4 terms per year and have the flexibility to take a term off when needed. Most degrees are completed within 18 – 24 months of part-time study. Retention is then best measured by calculating enrollment across 4 terms, and whether a student matriculated in 3 of those 4 terms. For the purpose of this indicator we will calculate enrollment from the summer of 2017 through spring 2018.
