PREPARATION

How long should I commit to studying? How many hours a day?

While your study efforts will be dependent on your knowledge of the content, we generally recommend that you study a minimum of 60 hours to adequately prepare for the SHRM-CP or SHRM-SCP exam. Your time could be reduced if you feel comfortable with a particular area. One of the unique tools within the Learning System is a SmartStudy tool that provides you with a detailed plan to study based on your current experience and knowledge since your time will vary based on those factors. Refer to slide 14 of the webinar to see our panel's response to this question.

Is the SHRM Learning System included in the price of the instructor-led course or do I have to buy the self-study version if I want these tools?

Yes, each of the learning options our panel discussed utilize the SHRM Learning System. The Instructor-Led participants received the additional guidance of a qualified instructor in a structured classroom environment and the ability to network with peers.

When you purchase the SHRM Learning System, is there a time limit to take exam?

You have access to the online tools for 18 months, which covers three test windows. It is strongly encouraged to use the most current version of materials to ensure you are focusing your studies on the content which will be on the exam.

If I'm going to study on my own, where do I begin and how do I pace myself?

The SHRM Learning System includes a SmartStudy tool that allows students to create a detailed plan to study based on their current experience and knowledge as the time will vary based on those factors. The tool highlights the average time per week to study, identifies areas to work on and provides a checklist of learning activities to prioritize studying.

Where can I get the self-study materials?

You can purchase the SHRM Learning System at https://learningsystem.shrm.org/. You will receive access to the online materials within 24 hours. If you choose to purchase the print materials, they will be shipped for arrival within 5-7 days.

Can you suggest book materials for someone who doesn't want to focus studies on online tools?

We understand that some people are more of a tactile learner, so we provide the SHRM Learning System reading materials in print format for an additional cost. You can also review the resources used to develop the BoCK at shrmcertification.org/SHRMBOCK/resources. Although you may prefer to study the printed materials, we highly recommend utilizing the practice questions within the online learning center so that you are comfortable with the computer-based testing you will experience during the exam.

My employer won't help pay for my certification – what alternative funding options are available?

- Member discount: Become a new SHRM member and save.
- Quantity discount: Gather a group of friends and co-workers who are looking for training. By ordering together in groups of 2 or more, you'll save a minimum of $70 per person.

- Tuition reimbursement: While some companies will not reimburse for training materials, they may offer tuition reimbursement.
- SHRM scholarships: SHRM offers various scholarships for professional development and certification. For more information visit shrm.org/about/awards/Pages/Scholarships.aspx

Are the practice questions like the actual exam questions?
The SHRM Learning System and the Certification Exams include both Knowledge and Situational Judgment questions. The formatting is similar, however they are developed by two separate entities so will not be exactly the same.

How long after studying the program should I wait to take the exam?
We recommend that you ensure your study plan provides time for you to take the post-test and then close any identified knowledge gaps prior to your exam. In addition to that, you will want to balance the retention of information leading up to your exam. Therefore we do not recommend a large gap in time between studying and sitting for the exam. Ultimately, your schedule should account for this.

Is it possible to prepare for the SHRM-SCP using only the BoCK?
The SHRM BoCK was developed to **identify** the behavioral and technical competencies which are the foundation to effective HR job performance. It does not **teach** or thoroughly explain the concepts.

What percentage should I get in the LS questions before I'm "ready" for the exam?
You should strive for 80%, but be careful that you're not answering the questions correctly from memory. One way to ensure you truly understand the concepts is to take the other level's post-test – you will receive a unique set of questions on the SHRM-CP and SHRM-SCP tests.

Can the SHRM Learning System be shared?
No, the SHRM Learning System is licensed to an individual user and cannot be transferred or shared.

Are there any other type of resources to practice test questions?
There are sample exam questions available in the certification handbook, within the SHRM Learning System and on learnhrm.shrm.org/practice/.
