

## Final Exam Schedule Formula for MAIN Fall and Spring Semesters

The grid below outlines the final exam day/time matrix the registrar's office uses to schedule finals during Exam Week within our MAIN Fall and Spring semesters only. Courses that meet in the Winter or Summer sessions and shorter “mini-term” modules will self-schedule their exams during regular class meetings.

While the grid in most cases identifies the final exam day/time that will be assigned, the registrar's office must reconcile each term's courses and room assignments after add/drop to ensure exams do not overlap. Once this step is completed, the office will enter exam day/time assignments into WebAdvisor for the campus community to view.

### NOTES:

- Final exams must be held in the same room the class meets in during the term unless changed by the registrar's office. Unauthorized changes to exam times or rooms will create scheduling conflicts for students!
- Independent studies, internships and off-campus classes will NOT be assigned a final exam.
