

MASTER OF SCIENCE

Business Leadership

Successful organizations need effective leadership at all levels and replacing outgoing talent is a critical issue for companies around the world. The MS in Business Leadership is an MBA alternative which helps to position you to fill this growing talent gap.

The curriculum is designed to emphasize team-building, leadership, effective communication, project management, and other vital management skills. Students develop immediate strategies to transition successfully from manager to leader. Graduates gain an industry-recognized credential to enhance their skill set and qualifications while preparing for professional advancement.
