

COVID-19 ISOLATION PROTOCOL

In light of the Centers for Disease Control and Prevention’s new isolation and quarantine guidelines, Manhattanville College Student Health and Counseling has revised its COVID-19 isolation protocol.

Effective immediately, students who test positive for COVID-19 will be required to isolate for a minimum of five full days or, complete a full 10-day isolation. The duration of isolation is at least 5 days from when symptoms first appeared, or date of positive test if asymptomatic, and dependent upon the individual’s symptom presentation.

DATE OF POSITIVE TEST (IF ASYMPTOMATIC) OR DATE OF SYMPTOM ONSET = DAY 0

To end isolation after day 5	Criteria for continuing isolation	To end isolation <u>after</u> day 10
<ul style="list-style-type: none"> <input type="checkbox"/> The student must be asymptomatic or symptoms must be mostly resolved <li style="text-align: center;">AND <input type="checkbox"/> The student must be fever-free for 24 hours+ without aid of fever-reducing medication <li style="text-align: center;">AND <input type="checkbox"/> The student must submit a negative antigen test result from day 5 or after 	<ul style="list-style-type: none"> <input type="checkbox"/> The student’s symptoms have not resolved or improved by day 5 <li style="text-align: center;">OR <input type="checkbox"/> The student tests positive via rapid antigen test on day 5 <li style="text-align: center;">OR <input type="checkbox"/> The student continues to experience fever on day 5 	<ul style="list-style-type: none"> <input type="checkbox"/> On day 10, the student is asymptomatic or symptoms have mostly resolved. <input type="checkbox"/> Negative test is not required for a 10 day quarantine. <input type="checkbox"/> Student is fever free for 24 hours+ without aid of fever-reducing medication <li style="text-align: center;">OR <input type="checkbox"/> If student does not meet criteria for release after day 10, a day-to-day symptom monitoring approach will be taken

Residential students isolating ON campus:	Students isolating off-campus:
<ul style="list-style-type: none"> <input type="checkbox"/> Students isolating on campus may not leave their isolation space for any reason unless it is to seek emergency or specialized medical care that is unavailable to them on campus <input type="checkbox"/> The student will be tested by our health services staff on day 5 or 6 (if days 5 and 6 land on a weekend, the student will be tested the next business day and must remain in isolation until they meet criteria for release) <input type="checkbox"/> If a student tests negative on day 5, the student will be released from isolation no sooner than 11:59pm on day 5. <input type="checkbox"/> In the event the result is positive, the student must complete the full 10-day isolation period. 	<ul style="list-style-type: none"> <input type="checkbox"/> Students isolating off-campus will be permitted to return to campus no sooner than day 6, if criteria for ending isolation is met <input type="checkbox"/> Students isolating off-campus must submit a negative rapid antigen test via the <i>mville.studenthealthportal.com</i> in order to be cleared to return UNLESS they complete the full 10 day isolation <input type="checkbox"/> The negative test submitted must be from day 5 or after <input type="checkbox"/> Students isolating off campus will NOT be permitted to return to campus to test in SHAC <input type="checkbox"/> At-home tests are acceptable for the release from isolation requirement (see At-Home Test Requirements below)

At-Home Test Requirements for Off-Campus Isolation:

- At-home test brands accepted for re-entry testing are BinaxNow, FlowFlex, and QuickVue.
- Students taking an at-home test must take a photo with all of the following information in the same frame:
 - the test kit showing the result
 - a government-issued photo ID or Manhattanville ID
 - an indicator of the date test was administered.
- The date the test was administered can be indicated by using a digital timestamp on the photo and by writing your name and the date and time the test was administered on the test kit or a piece of paper and including it in the photo.
- If an at-home test is used, the student certifies that the test is genuine and valid, and that the result was obtained on day 5 or after
- The student may return from off-campus isolation on day 6 or after with a negative test

End of Isolation Clearance:

- A student may not return to class or any activities, for any reason, until cleared to end isolation by SHAC Health Services.
- SHAC Health Services staff will check students in isolation regularly.
- Once cleared, the student will receive an email from SHAC Health Services indicating that they may return to campus, classes, and activities.
