Exemption to Immunization Requirements

A person who has been exempted from a vaccination is considered susceptible to the disease or diseases for which the vaccination offers protection. This person may be subject to exclusion from college, group facilities or other programs, if the local and/or state public health authority advises exclusion as a disease control measure.

I understand the risks associated with not receiving the vaccines checked below.

In order to obtain exemption from some or all vaccination requirements you must provide a written statement indicating the medical contraindication or religious objection to the vaccination(s).

Please note: Each case will be considered individually. Based on the student's statement and documentation, Student Health and Counseling may follow up with additional questions and may review all medical records on file with the College in evaluating requests.

I understand that my vaccine exemption for either medical or religious reasons subjects me to exclusion from campus and/or campus related activities in the event of an outbreak of a disease for which immunization is required. I further understand that while the College will aim to academically accommodate any absences from campus due to communicable disease, the College will not be responsible for any costs associated with missed classes or exclusion

from housing during the period of communicability and that no refund of such costs will be made, including periods of quarantine that students choose to complete off-campus. I further understand that, by requesting an exemption to one of the vaccines included on this form, I agree to release Manhattanville College from any costs or liability associated with any illness, injury, or costs I may incur due to vaccine-preventable disease in association with any College program or activity.
